Experience

FOUNDER & WEB DESIGNER/DEVELOPER, Laura Pohl Web Solutions Inc.

MAR 2020 – JANUARY 2025

- Designed and deployed websites with backend integration for small businesses using HTML, CSS, & JavaScript
- Engaged with clients to elicit requirements and create plans to meet their web presence goals
- Created project roadmaps, timelines, and cost estimates based on client requirement
- Built wireframes and prototypes in Figma and Adobe tools to guide client approval
- Developed attractive, responsive websites for clients using WordPress with customized CSS
- Managed existing websites including adding features, pages, and updates on an ongoing basis
- Taught clients how to maintain and update their websites independently

DATA ENTRY SPECIALIST, Kirkwood Direct

JUL 2019 – MAR 2020, NOV 2021 – AUG 2023

- Automated daily postal reconciliation tasks using Visual Basic, saving 125+ labor hours annually
- Documented work instructions that streamlined workflows and increased training efficiency
- Consolidated data from multiple sources into clear, actionable reports
- Developed strategies for database optimization
- Proofed large data sets for customer projects

PREMIER BANKER, Santander Bank, N.A.

DEC 2015 – APR 2017

- Provided financial guidance and problem-solving support to customers
 - Implemented branch-wide tracking systems for investment and referral activity
 - Educated customers on digital banking tools and online systems
 - Solved complex customer issues using innovative banking solutions
-

Technical Skills

Languages & Frameworks: HTML & HTML5, CSS & CSS3, JavaScript, React, Node JS, Express, MongoDB, Tailwind CSS, Bootstrap CSS, REST API

Tools: Git, GitHub, Visual Studio Code, IntelliJ, Figma, Postman, Notepad++, Trello, Adobe Creative Suite, npm

Additional Experience: Java, Python, WordPress (custom CSS), Visual Basic

Projects

MINISHOP, Noble Desktop - NYC, NY

2026

A responsive sample e-commerce web application

- Displays products from a remote API with filtering via buttons and search
- User authentication with Auth0; logged-in users can add products and view order history
- Integrated PayPal checkout

Technologies used: React, JavaScript, HTML, CSS, Browser Router, Auth0, PayPal, Tailwind, REST API

ALL ABOUT DOGS WEBSITE, Noble Desktop - NYC, NY

2026

A responsive, multi-feature dog encyclopedia web app

- Integrates multiple external REST APIs that fetch data
- Implements dynamic DOM manipulation to render a random photo grid that adjusts the number and width of displayed images based on screen size
- Displays a random dog facts list and a detailed breed info panel that is populated based on user selected breed from an interactive dropdown populated from 1,000+ breeds from the API

Technologies used: HTML, CSS, JavaScript, REST API

ANIMAL WORD SCRAMBLE GAME, Noble Desktop - NYC, NY

2026

An interactive, browser-based word scramble game

- Implements a custom letter-shuffle algorithm with edge-case handling and a time-based auto-hint countdown system
- Tracks player state across each round
- Duplicate guess prevention, live guessed words list, and a full state reset on new game

Technologies used: HTML, CSS, JavaScript

TASK MANAGER APP, Noble Desktop - NYC, NY

2026

A React-based task management application

- Features full CRUD functionality
- Implements local storage persistence, priority tagging, and dynamic filtering
- Includes a clean, accessible UI using Tailwind CSS

Technologies used: React, JavaScript, Tailwind CSS
