Summary

Front-end web developer with hands-on experience building responsive, accessible, and user-friendly websites using HTML, CSS, JavaScript, and React. Strong foundation in modern front-end practices, UI/UX principles, and component-based development. Background includes freelance client work, e-commerce projects, and full-stack coursework. Known for clear communication, problem-solving, and delivering polished, functional interfaces.

Technical Skills

Languages & Frameworks: HTML & HTML5, CSS & CSS3, JavaScript, React, Node JS, Express, MongoDB, Tailwind CSS, Bootstrap CSS, REST API, WordPress (custom CSS)

Tools: Git, GitHub, Visual Studio Code, IntelliJ, Figma, Postman, Notepad++, Adobe Creative Suite, Microsoft Office, npm

Experience

FOUNDER & WEB DESIGNER/DEVELOPER, Laura Pohl Web Solutions Inc.

MAR 2020 – JANUARY 2025

- Designed and deployed responsive websites with backend integration using HTML, CSS, JavaScript, and WordPress while managing ongoing updates and additions for existing websites.
- Managed full project lifecycles from initial client requirements gathering and roadmaps to timeline and cost estimations.
- Prototyped user interfaces using Figma and Adobe tools to secure client approval before development.
- Trained clients in content management systems to empower them to update their web presence independently.

DATA ENTRY SPECIALIST, Kirkwood Direct

JUL 2019 – MAR 2020, NOV 2021 – AUG 2023

- Automated postal reconciliation tasks using Visual Basic to consolidate data from up to five sources into actionable weekly reports, saving 125+ annual labor hours.
 - Streamlined employee onboarding by documenting standardized work instructions to create efficient training processes.
 - Cleaned database containing 10,000+ customers by auditing large datasets, and fixing errors.
-

Projects

ALL ABOUT DOGS WEBSITE, Noble Desktop - NYC, NY

2026

A responsive, multi-feature dog encyclopedia website

- Implements dynamic DOM manipulation to build a responsive photo grid and an interactive details panel
- Integrated multiple external REST APIs to power an interactive dropdown featuring 1,000+ dog breeds, enabling dynamic data fetching for breed information and a randomized dog facts list

Technologies used: HTML, CSS, JavaScript, REST API
